Build Responsibly

Additional Information

Additional information on methods to protect structures is available through the Lawton Library system and through the web at <u>FEMA</u>.

Publications available from FEMA are:

- <u>Building a Safe Room Inside Your House</u>: Provides detailed guidance and plans on shelter design for high wind storms.
- <u>Homeowner's Guide to Retrofitting (FEMA 312)</u>: Contains an overview of six methods to protect a structure during a flood event.
- Protecting Building Utilities from Flood Damage: Contains information on protecting building utilities from flooding.

<u>City of Lawton Floodplain Regulations</u> provide additional information.
